Rev. S. G. Baker - - Editor

Miss Mosely and Mrs. Dora C. Force (Miss Wilson) have returned to the city ready to assume their duties in the school room next week.

The Christmas cantata at Bethel church last Monday night was very nicely carried out, and the committee is receiving the thanks and congratulations of those who know a good exercise when they see it.

The Teachers' Association convened in Bethel church last Tuesday night as per announcement. The session up to this writing has been quite interesting and instructive. Some of the best educators of the state are present and the work that is being done is a credit to them. The citizens of DeLand have thrown wide their doors, and all are having it quite pleasant. A banquet will be tendered the teachers at the Odd Fellows Hall Thursday night, the details of which will appear next week. The only trouble that the local committee has had is to supply the homes that were provided for the teachers. More than fifty places could not be supplied with guests.

Dr. D. A. Perrin will hold his last quarterly conference at Bethel church on the Third Sunday of January. All members are called upon to do their full duty.

The addresses of welcome delivered to the Teachers' Association were well received. They were delivered by the Rev. J. A. Davis, S. G. Baker, Prof. R. H. Howard and Mr. W. S. Spear. Prof. W. L. McCrear, principal of the Daytona school, is presiding over the deliberations of the Association with dignity and ease.

Schools will open next Monday, and all the teachers will enter upon the last part of their year's work. Patrons should see to it that their children attend very regularly and get all the benefits to be derived from that source.

Patent Medicine adds.

Chamberlain's Cough Remedy never disappoints those who use it for obstinate coughs, colds and irritations of the throat and lungs. It stands unrivalled as a remedy for all throat and lung diseases. Sold by all Dealers.

What One Negro is Doing.

As pretty a bunch of celery as was ever grown was brought to the Record office Wednesday by John Perry, colored. It was grown by him on his farm near Old Town, within a stone's throw, almost, of Fernandina. And this bunch of celery was not merely one selected for exhibition, but the grower of it had a fine lot of the same kind in his wagon which he brought to market. John has been raising celery on a small scale for the past two years but this year he concluded to produce a much larger crop and there is no doubt about his success. He put out 10,000 plants at different times, and the bunch he brought to the Record office was one of a thousand of his first planting. The rest of his crop, he says, is only about half grown, but the indications are that it will be equally as fine as the present crop. The bunch we received measured one yard in length and was as brittle and finely flavored as any we ever tasted. John is a hustling good farmer and he is making a small piece of ground pay him handsomely.—Fernandina Record.

The busiest and mightiest thing that ever was made is Chamberlain's Stomach and Liver Tablets. They do the work whenever you require their aid. These tablets bring weakness into strength, listlessness into energy, gloominess into joyousness. Their action is so gentle one don't realize they have taken a purgative. Sold by all Dealers.

Waiting to Gloat.

"We got our cook and our housemaid to take opposite sides on this polar question."

"And that means?"

"That they'll both stay with us until it is settled."—Louisville Courier-Journal.

Have you a weak throat? If so, you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another and the last is always the harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all Dealers.

His Revenge.

"What do you want with that old scrubbing brush?"

"I wish to clip a few bristles. I've had a quarrel with my girl, and she insists that I return her lock of hair."—Louisville Courier-Journal.

The express companies of the country doubtless are run by good business men, but that hogswilliness which so often develops in an individual or corporation enjoying a monopoly is causing these people to be in danger of killing the goose that lays the golden egg—or, at least of stirring up such a hornet's nest that the goose will not lay any more. One of these companies has recently paid a dividend of 300 per cent, and this on top of its regular annual dividend of 10 per cent, which has been forthcoming for many years. It is only a question of time—and not a long time, either—when the limit of endurance will be reached by the public, and the extortion now practiced by these companies will be summarily stopped. While there has been much regulatory legislation affecting railroad traffic, little has been attempted along this line in connection with the

express companies; but their day is coming. Perhaps the development of the parcels post will give some relief to their present system of robbery.—Lakeland News.

FOUR BILLION IN PENSIONS

The great total of \$1,619,737,703.77 was distributed by the United States Government for pensions during the fiscal year ended June 30, 1909, the largest sum ever paid out in a twelve-month period by this Government.

It will be an amazing revelation to the people that the pension roll is still increasing forty-four years after the conclusion of the Civil war, even taking into account the number of new names being added by reason of the more recent skirmish with Spain, as it was announced three years ago that the apex had been reached and that the pension roll would decrease much faster than it increased during the period following the Civil War and the amendments and new acts affecting the pensioning of old soldiers.

But the pension roll continues to increase in amount, notwithstanding that thousands of old soldiers and their dependents are dying yearly, and that the thin blue line on Decoration Days is growing pitifully thinner each year. The increase during the last year is attributed to new legislation.

Secretary Ballinger, in his recent report, states that since the foundation of the Government there has been disbursed for pensions to soldiers, sailors and marines, their widows and dependents, the sum of \$3,913,082,513.73, of which amount \$96,445,444.23 was paid prior to June 30, 1864. Since that date pension payments have increased from \$15,450,546.88 in 1866 to \$161,973,703.77 in 1909. The act of February 6, 1907, granting pensions of \$12, \$15 and \$20 per month to the survivors of the war with Mexico and the Civil War on reaching the ages of 62, 70 and 75 years respectively, has added a number of pensioners to the roll.

The last surviving soldier of the Revolutionary War died April 5, 1896, and the last surviving widow of that war died November 11, 1906. The name of one daughter of a soldier of the Revolution, pensioned by a special act of Congress, still remains on the roll. The last pensioned soldier of the War of 1812 died May 13, 1905, but the pension rolls still contain the names of 103 widows of soldiers of that war.—National Monthly.

Indigestion.

This trouble usually arises from a disordered liver. If you will arouse the liver to throw off the bile accumulation through the proper channels, you will soon feel better, your appetite will improve, and the whole man will be more wide-awake and healthy. For this purpose St. Joseph's Liver Regulator is a fine remedy. Try it and be convinced of its wonderful efficiency. Druggists and general merchants sell it, liquid, 50 cents a bottle; powdered, in tin boxes, 25 cents a box. See advertisement in this paper.

Johnny's Backbone.

Teacher—Johnny, can you describe your backbone?

Johnny—Yes'm.

Teacher—Well, do so.

Johnny—My backbone is made up of a lot of little bones piled on top of each other. On one end sits my head and on the other end sits I.

\$800,000 FIRE AT CRYSTAL RIVER

The immense plant of the Dixon Pencil company at Crystal River was totally destroyed by fire Friday morning. The loss is \$800,000.

The fire was discovered before daylight. Every effort was made to check its progress, but it gained headway and spread to all parts of the plant.

A telephone message was sent to Ocala, urging the fire department there to go and make an effort to save part of the plant. A special train was made up, the apparatus placed on flat cars and taken there, but the fire was practically over by the time the train arrived.

NOTICE OF APPLICATION FOR FINAL DISCHARGE.

Notice is hereby given that six months after date, to-wit, on February 16, A. D. 1910, I will present my final account as executor of the estate of Frances C. Codrington, deceased, to the Honorable County Judge of Volusia county, Florida, and ask for final discharge.

CHRIS. O. CODRINGTON
Executor Estate of Frances C. Codrington deceased.

Herrick is manager, was the greatest plant of its kind in the country and the one big industry of the Crystal River section. It prepared all of the cedar for the pencils of the famous Dixon company, headquarters of which is in Jersey City, N. J. The plant was originally located in Tampa, later removed to Cedar Key and when the cedar in that section was worked up it was removed to Crystal River.

The Meanest Man in Town

is the one who always wears a frown, is cross and disagreeable, and is short and sharp in his answers. Nine cases out of ten it's not the poor fellow's fault, it's his liver and digestion that make him feel so miserable, he can't help being disagreeable. Are you in danger of getting into that condition? Then start at once taking Ballard's Horebalm for your liver—the safe, sure and reliable vegetable regulator.

NATURE TELLS YOU

As Many a DeLand Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills.

People in this vicinity testify to this. C. H. Spellman, 203 Magnolia avenue, Orlando, Fla., says: "For some time my kidneys were weak and I had a frequent desire to pass the kidney secretions. My back often became lame and I also had pains in my kidneys. On hearing about Doan's Kidney Pills I made up my mind to try them and procured a box. They acted at once on my kidneys and since using them, I have had no pain or lameness in my back. The kidney secretions have also been regular in passage and I have felt better in every way. I gladly recommend Doan's Kidney Pills."

Scientific Spanking

consists in punishment only when a child is actually bad. Some mothers think that all crying is badness, it's not. When your baby cries, look for pins or some external cause, if you can't find them give the baby White's Cream Vermifuge as the chances are it is suffering from worms which keep it hungry and cross all the time. Pleasant to take—sure in its action. Price 25 cents.
